A grain vac uses air to draw the grain into it and move it through, so it tends to be gentler on the grain. Grain vacs "maintain seed integrity and minimize the seed damage," says Marvin Schmidt, the product specialist for Farm King grain vacs. This system is ideal for farmers and commercial operators who move delicate or high-value seed.

Brandt's innovative Cone Separator doesn't require any moving parts in order to separate grain from the air-stream and direct it away from the fan inlet, while still allowing unrestricted airflow. The Air Equalizer Elbow balances the flow of air over the Cone Separator and into the fan, allowing for maximum efficiency and capacity.

An industry first, Brandt's patented Cone Separator directs grain into the auger without the use of moving parts or chaffers in the body. No adjustments are required when going from crop to crop. The Cone Separator efficiently directs grain away from the inlet fan, while allowing air in. Separation of the grain and air occurs in a 9 inch window,
