Colony One Mars Colony Mars

Colony One Mars is about a human mission to check what happened to the first human colony on Mars after it lost contact with Earth. Apart from the Hard SF bits it contains little of interest. It starts off as excellent Hard SF but the hard classification seems more and more questionable as the story develops.

Mars One

Pretty good follow-up to Colony One Mars. The story continues with Jann and Nills leading the beta clones in an uprising against the usual greedy corporatists. While not totally original, it's a decent read--much better than a lot of schlock called SciFi, but are just romances set in a futuristic time/place.
