conscious choice whether or not to commit a crime.

Understanding Criminology Theories - Criminology

Rational choice theory: People generally act in their self-interest and make decisions to commit crime after weighing the potential risks (including getting caught and punished) against the rewards. Social disorganization theory: A person's physical and social environments are primarily responsible for the behavioral choices that person makes. In particular, a neighborhood that has fraying social structures is more likely to have high crime rates.

ways to control crime or rehabilitate the criminal. There are many theories in criminology. Some attribute crime to the individual; they believe that an individual weighs the pros and cons and makes a conscious choice whether or not to commit a crime.

Criminology Theories: The Varied Reasons Why People Commit ...

First conceived by Cesare Beccaria, the classical theory states that crime is a result of the risk-reward ratio leaning favorably towards "reward." In other words, if the reward outweighs the risk, crime occurs. Of course, this theory also states that crime is a choice and that the choice must be a selfish one.

have provided empirical insight into the important factors perceived and expected to explain delinquency and crime, no single theory can adequately explain all types of crime and delinquency or all of the variation in crime and delinquency.

Criminology Theories - Criminal Justice - IResearchNet

Biological theories of crime asserted a linkage between certain biological conditions and an increased tendency to engage in criminal behaviour. In the 1890s great interest, as well as controversy, was generated by the biological theory of the Italian criminologist Cesare Lombroso, whose investigations of the skulls and facial features of criminals led him to the hypothesis that serious or persistent criminality was associated with atavism, or the reversion to a primitive stage of human ...
