Discovering Geometry Resources

Discovering Geometry helps students see connections between geometry and algebra by integrating the review of algebra skills into every set of exercises. It also devotes one lesson in each chapter specifically to reviewing and practicing a key algebra topic.

Discovering Geometry - Seattle Public Schools

Discovering Geometry began in Michael's classroom over 35 years ago. During his first ten years of teaching he did not use a textbook, but created his own daily lesson plans and classroom management system. He believes students learn with a greater depth of understanding when they are actively engaged in the process of discovering concepts and we should delay the introduction of proof in ...

Discovering Geometry Resources: Discovering Geometry

In Discovering Geometry we develop reasoning skills in four general ways: 1. First, when students perform investigations and make conjectures in the form of formulas (e.g., a formula for the number of diagonals of an n -gon or a formula for the sum of the measures of the interior angles of an n -gon) students must use inductive reasoning while doing geometry.
