This second edition is NOT at all like the first. This is an update to the first edition of Head First Python, which published late in 2010. Although that book and this one share the same author, he's now older and (hopefully) wiser, and thus, decided to completely rewrite the first edition's content for this edition.

The 2nd edition removes the Android material due to the fact that it's all a bit of a fast-moving target (shifting sand, so to speak). There are no plans to amend the first edition to address your raised issues as - by the time we find the time to do so - the second edition will be out and the first edition will be retired.

Errata | O'Reilly Media Head First Python

Book review: Head First Python by Paul Barry I just finished reading "Head First Python" and had great fun doing so. I think that this is a great book for the beginning Python developer. But unlike a lot of other books that aim for beginners, good practices aren't ignored for the sake of simplicity.
