Introduction. This book studies the contemporary problems of the Great European Lakes – Ladoga and Onego - on both a regional and a global scale, placing special emphasis on interactions between the limnological and socio-economic environments. Field observations and numerical modeling are used to investigate the responsiveness of both environments to respective impacts, as well as to regional and global climate change.

Ladoga and Onego — Great European Lakes | SpringerLink

Ladoga and Onego - Great European Lakes Observations and ...

Lake Ladozhskoe and Lake Onezhskoe (Ladoga and Onego respectively) are the greatest lakes in Europe. Another geographical object in Northern Russia has a similar name: the Onega River. At first the definition for the Great European Lakes (GEL) like Ladoga and Onego by analogy with the Great American Lakes (GAL) was used in a book written by Gusakov and Petrova, In front of the Great Lakes (1987).

The Great European Lakes: state of the art | SpringerLink

Lake Onega is a lake in the north-west European part of Russia, located on the territory of Republic of Karelia, Leningrad Oblast and Vologda Oblast. It belongs to the basin of the Baltic Sea, Atlantic Ocean, and is the second largest lake in Europe after Lake Ladoga. The lake is fed by about 50 rivers and is drained by the Svir. There are about 1,650 islands on the lake. They include Kizhi, which hosts a historical complex of 89 orthodox wooden churches and other wooden constructions of the 15th
