Experiencing this mid-life shift as bold achieving women is particularly frustrating because we are not willing to surrender to this, but we are ready to explore and figure out what's next. We want to know who we have become, how to make sense of these changes and design a life 2.0 and get on with it.

3 Answers to Your Mid-Life What's Next - Cheryl Kaiser

At midlife we had a lot of stresses- my illness, death of husband's father, an airing of a family secret, moves , husband was unemployed for 6 months and demanding new job. My husband decided he didn't want any more responsibility or stress so he's created a new life, new friends, goes scuba diving all the time, got his own place.

In Midlife Crisis, replay is the stage where people start acting crazy or in a manner that is completely opposite to their nature or personality. They try to regain their youth by making up for lost time. They may leave a job of many years for one that seems exciting, even though it may not be a good fit.
