914/6: 2.0-liter flat-six engine with 110 hp from the Porsche 911 T. These were followed by a 2.0-liter four-cylinder engine with 100 hp based on the 1.7-liter engine in model year 1973 and a 1.8-liter four-cylinder engine with 85 hp in model year 1974. In the four-cylinder models the ignition lock was located on the right.

Porsche 914 - Porsche USA

Karmann would assemble four-cylinder 914-4s, and would also send 914 bodies to Zuffenhausen for Porsche to turn into the six-cylinder 914-6. Through some complicated cost accounting, Lotz managed to charge Porsche so much for the 914-6 bodies that the car ended up costing buyers just a few hundred dollars less than the 911.

The 252-horsepower Macan starts at \$47,500, making it the cheapest new Porsche you can buy in the U.S. The 2.0-liter inline-four is a familiar Volkswagen Group engine, but the rest of the hardware ...

The 252-hp Four-Cylinder Macan Is Your New \$47,500 Entry ...

Built entirely by Porsche and badged as such in all markets, the Porsche 914/6 sold for better than \$2500 more than the four-cylinder job -- about \$6100 in the United States -- and was thus even more difficult to sell. To no one's surprise, it was quietly canned after 1972 and only 3351 examples.
