PDA (Pathological demand avoidance) - National Autistic ...

They try to AVOID these DEMANDS. All children do this to some extent of course, but these children do this much more than is considered normal. This is why it is called PATHOLOGICAL. In order to avoid these demands made of them, children with PDA will come up with all sorts of excuses:

A Parent s Guide to Understanding Pathological Avoidance ...

Pathological Demand Avoidance is a term first used by child psychologist Elizabeth Newson in the 1980s. She proposed that pathological demand avoidance, or PDA for short, was a “personality profile” of some children on the autism spectrum. It’s now officially recognized by the National Autistic Society as a distinct type of ASD.

contexts from diagnosis through to adulthood.

Understanding Pathological Demand Avoidance Syndrome in ...

Pathological Demand Avoidance (PDA) is now considered to be part of the autism spectrum. Individuals with PDA share difficulties with others on the autism spectrum in social aspects of interaction, communication and imagination. However, the central difficulty for people with PDA is the way they are driven to avoid demands and expectations.

Pathological Demand Avoidance - AUTISTIC ASPERGERS

Pathological Demand Avoidance of PDA is becoming more widely recognized as a distinct profile of autism. British psychologist Elizabeth Newson came up with this term which describes an anxiety-driven need to be in control and avoid other people's demands and expectations.
